Admission Process

Admissions Criteria for Students aged 16+ (as of September 2025)

For entry into Walton High in Year 12, September 2026

In order for applications to be considered, they need to be completed by the specified deadline. For enrolment in September 2026 the deadline is **30 January 2026.**

Walton High's Post 16 is part of the strategic provision for all students already on roll at the school. All students attending Walton High in Year 11 and who meet the entrance requirements for their chosen courses will be offered a place in Year 12.

In addition, a minimum of 60 places will be available to students joining Walton High at Year 12.

Final course allocations and decisions on which courses will run are subject to staffing, minimum and maximum class sizes.

In the event that the admission number is exceeded, places will be allocated as follows:

- Students who fulfil the admission requirements for their proposed courses of study, as detailed in the prospectus.
- Students who have stipulated in their application and IAG meeting that Walton High is their first choice Post 16 provider.
- Students who complete all aspects of the application and enrolment requirements including IAGs and Induction.
- In the event of a course being oversubscribed, places will be allocated on the basis of proximity to the school.

Please note: you need to be available for enrolment on Thursday 20 August 2026. You risk your place at Walton High if you are not available to attend enrolment on this day.

Please note:

All applicants who do not meet the entry requirements for their chosen courses will be offered an Information, Advice and Guidance appointment on the enrolment days with a member of staff to assist in finding an appropriate pathway. We want all students to access a programme of study that will ensure their future success and happiness; we shall do all we can to support students at this pivotal time.
